Web Developer

Chittorgarh, Rajasthan 312001 || kartikajmera890@gmail.com || +91-9799712300

ABOUT

A results-driven full-stack developer with experience in designing, developing, and deploying scalable web applications. With a strong focus on problem-solving and efficient system design, I thrive in fast-paced environments, delivering robust and innovative solutions. Committed to continuous growth, I actively stay ahead of industry trends to drive value and success in every project.

EXPERIENCE

Jetbro

December 2023 - Present

Full-Stack Developer

Ahmedabad, India

- Led the end-to-end development of [Cropbasket - B2B E-Commerce App](#), building the backend APIs using Nest.js and the admin dashboard frontend with Next.js and TypeScript, and deploying the application on AWS EC2, ensuring scalability and reliability.
- Contributed to feature development and bug fixes on various projects like - [Pluckk](#) and [Lehlah](#) enhancing performance and user experience through optimized code.
- Mentored and guided 2 interns, conducting code reviews and providing technical support to ensure alignment with project goals.
- Improved deployment processes by setting up Docker containers and automated pipelines on AWS EC2.

FREELANCE/SIDE PROJECTS

[Playafro](#)

October 2024 - Present

- An official Afro-Music promotion platform enabling artists to upload songs and DJs to download and review them.
- Developed both the frontend and backend using **Next.js**, ensuring a seamless user experience and efficient data handling.
- Built features for secure file uploads and reviews, optimizing performance and usability.

[Ouverture - \(Not Live Yet\)](#)

January 2024 - Present

- A SaaS logistics platform to streamline logistics management for planners, expeditors, and LSPs.
- Developed the frontend using **React**, delivering an intuitive and user-friendly interface.
- Implemented the backend using **Node.js** with a serverless architecture for scalability and cost-efficiency.
- Designed APIs and database schemas to manage complex logistics workflows effectively.
